THEY ARE IN SESSION

An Anti-Bell Compact Will Be
Formed.

ALL LINES TO BE CONNECTED

Rapid Growth of the Independent Companies Has Alarmed the Bell People and Increased Activity Is Noticeable—McGhie & Moore Will Enter the Compact.

Representatives from all the large and small telephone companies in Western Pennsylvania, West Virginia and Eastern Ohio are in session at Pittsburgh today, with a view to establishing a gigantic trust to compete with the Bell people.

The purpose of the meeting is to form an organization that will cope with the Bell Telephone company, and to prepare a campaign of extension. The independent people were all anxious to get together and in some manner prepare for a long struggle against the monopoly. With this object in view, the secretary of the Keystone company sent out circulars to the various concerns, asking them to meet in Pittsburgh today. The call was answered by about 25 companies, who sent delegates to represent their interests, and that the plan of organization will prove a success, is without doubt.

The combine to be formed will include all territory east of Sistersville, W. Va., where McGhie & Moore have their system constructed, west of Altoona, Pa., south of Lake Erie, and north of northern West Virginia. Primarily the association will be for the mutual protection of all members, but the most important matter will be to connect the isolated and individual exchanges, and make one grand system.

The delegates will discuss whether this will be done by the association, or whether a gigantic corporation will be formed, with a capital of \$3,000,000, to build the lines. The methods of the Bell company to stamp out competition are continually coming to light, as is shown by the secretary of the Newark company, who says: "Independent companies through Ohio are doing fine work, paying good dividends and cut the Bell rates in half. We have some 500 'phones in our little city. Get paid for all of these, notwithstanding the Bell people have, ever since we started, run a free exchange of 400 'phones. It does not effect us at all; no more than if they were out entirely."

L. J. McGhie is in attendance at the meeting, and when approached by a reporter at the depot this morning said: "We intend organizing for the purpose of connecting the many independent companies, and forming a grand system to compete with the Bell people." Further than this he had nothing to say. Mr. Moore is not present at the meeting.

THE PICNIC.

But One Accident Happened Yesterday at
Rock Point.

The picnic given by the First Presbyterian church at Rock Point yesterday was a very enjoyable one, the day passing off with but one accident to mar the pleasure, which happened about 10 minutes after the train arrived. Mrs. Blackburn, of Wellsville, was hit in the head by a baseball. Blood gushed from the lady's mouth and nose, and for a time it was feared she was seriously injured, but she recovered in a short time and felt no ill effects from the accident beyond a severe headache and a slight scratch on one ear, caused by a hair pin. The boys defeated a ball team from Elwood in the morning by a score of 15 to 3. In the afternoon the team came back reinforced and another game was started, but in a few innings the Liverpool boys were convinced that they were playing ball with rowdies and quit playing. A number of boys, as usual, tried to jump on and off the train while it was in motion, and one of their number on the return trip was dragged for a distance of 8 or 10 feet when the train pulled out of East End. His feet slipped as he went to get on and they went under the car step, but he in some way managed to hang on to the train and pull himself up, a much frightened boy.

A SOUND MONEY LEAGUE.

German Americans Organize a Society
Who Favor Gold Standard.

The German-American Sound Money League is the name of a society recently organized in New York, with the sole purpose of ascertaining the views of their countrymen in regard to the currency question. To obtain such proof the league has sent circulars broadcast over the country. They think the free coinage of silver, with a ratio of 16 to 1, would produce a fatal panic and injure

the interests of our country more than any mercantile crisis ever known. The league will cast their votes for the presidential candidate who will unequivocally declare himself against the free coinage of silver, and a continuance of a gold standard. If the platforms of both the great parties are ambiguous, so as to leave their meaning in doubt, they ask the assistance of the German-Americans in forming an independent sound money party.

ACT OF INHUMANITY.

An Unfeeling Husband Desecrates the
Grave of His Wife.

Much indignation is expressed by California hollow residents over the actions of an inhuman man who lives in that part of the city. The wife of this man has been dead for several years and on Memorial day her father visited the cemetery where his daughter is buried, and decorated her grave with flowers. A day or two later this inhuman husband, hearing what his father-in-law had done, rushed out to the grave of his departed wife, and unfeelingly devastated the flowers that had so tenderly been placed on the grave. Returning, he sought his father-in-law, and with oaths, demanded to know what right he had to decorate his wife's grave. The former mildly remonstrated, but the cruel son-in-law, in a drunken rage, prepared to assault the elderly gentleman, who retaliated, and proved too much for his assailant, and administered a thrashing to the son-in-law, as he richly deserved.

WILL BE HERE.

Infirmary Directors to Hold a Conference
With the Trustees.

The infirmary directors are expected here tomorrow for the purpose of conferring with the township trustees to see what is best to be done in regard to the people who are receiving support from the county, as the law requiring all persons receiving such support to be sent to the infirmary went into effect on last Monday. Since the trustees here received notice from the infirmary directors in regard to the law they have cut off from their list 28 families who were in the habit of receiving relief regularly. They now have on their list about 10 families who it would be an impossibility to shut off without causing them to starve, and it is in regard to what disposition will be made of these, that the infirmary director was sent for. It is more than probable that some of these people will have to go to the infirmary, or receive support from some other source.

WAS NOT A SUCCESS.

John Allison Does Five Hours' Work and
Then Departs.

John Allison was put to work on the streets Monday afternoon under the careful eye of Commissioner Finley for the purpose of working out his fine. John did a good half-day's work and returned to city hall in excellent condition and spirits, and spent the night there. Yesterday morning he was aroused bright and early and started for the fire station. He arrived there at 15 minutes to 7 o'clock, and opened the door and looked in. The sight of the men ready to go to work or the thought of his previous half-day's work must have startled John, for he closed the door with a bang and started on a run, preferring to escape rather than work. The last heard of him he was seen going toward Calcutta at a rapid gait. John will very likely give the city a wide berth for some time, but as soon as he returns he will either put up the money for his fine or go back to work on the streets.

ARRESTED COWS.

Constable Bertele Made a Raid on Ravine
Street Yesterday.

Constable Bertele took four stray cows in charge on Ravine street yesterday afternoon, and they will be held until the owners call for them and pay costs. The constable is determined that the practice of allowing cows to run at large in the thoroughfares must cease, and he is using strenuous efforts to that effect. Complaint has been made by a number of citizens in the vicinity of Thompson's hill, who claim that cows break down fences and destroy their gardens and lawns, and are pleased at the consistency with which the new officer is enforcing the ordinances.

Another Kick.

Residents of Third street, in the vicinity of the school house, are complaining because the dry closets at the central school building are being burned out in the daytime, claiming that the stench arising therefrom is something awful. They are of the opinion that this work should be done after night.

Repairing the Cottage.

George Croxall, of Fifth street, is repairing his cottage at the camp ground, preparatory to moving out there.

NOW JACK THE PEEPER

He Amuses Himself by Follow-
ing People and

GAZING INTO PRIVATE WINDOWS

His Actions Unmolested Until Monday
Night, When He Came Near Getting a
Sound Thrashing He so Richly Deserved.
He Tells Not, Neither Does He Spin.

"Jack the Peeper," is the name given to a certain young man who is engaged in private detective work, presumably for his own amusement and the annoyance of his victims.

We have a "Jack the Slasher," who has a mania for cutting the dresses of ladies and children, and eludes all efforts at apprehension. Then there is "Jack the Huggler," who frequents the hill districts and terrorizes unprotected young girls by emerging from dark nooks and catching them in his arms.

Unlike the last mentioned Jacks, the identity of the peeper is known. He is a tall, well-built fellow, and has a horror for hard work. He amuses himself by shadowing gentlemen, when accompanied by their lady friends, and devotes whole evenings to this work. On numerous occasions he has been seen gazing into windows of private residences, but until Monday night was unmolested.

An employee of the glass house was strolling along one of the thoroughfares, accompanied by his best girl, Monday night, when he suspected that he was being followed. An out-of-the-way course was then taken to see if his suspicions would be verified. Looking back, he saw the peeper dodging trees and telephone poles with the air of an old-time sleuth. The gentleman then escorted his lady to her home and started in search of the shadower, with the avowed determination of putting his muscular powers into play and severely punishing the offender. "Jack" was found not a great distance from the residence, and an explanation was asked as to his conduct. He denied that he was following the gentleman, and showed himself a coward by not resenting the many uncompensated appellations that were directed at him.

Numerous complaints have been made as to the actions of "Jack the Peeper," and if he does not cease his practice, will eventually strike an obstacle that will tend to change his tactics. If we only had an ink slinger, the quartet would be complete.

YOUNGSTOWN SATURDAY.

The East Liverpools to Cross Bats With a
Strong Team.

Manager Morris has arranged with the Youngstown team to play here on next Saturday. The Youngstown club is a strong one, and will keep the East Liverpools playing ball to win. Their team is considered by many to be stronger than the club representing that city in the inter-state league, and a challenge has been issued by them to play that organization for \$200 a side. As this city now has a club that is as strong as a majority of the inter-state teams, this don't worry the boys a particle, but makes them all the more anxious to win the game Saturday. As Scio college is the only club that has been here this year that was anything near as good as the home team it is to be hoped the Youngstons are as good as reported. The members of the East Liverpool club are spending a great deal of time practicing at West End park, and it is safe to say they will play better ball Saturday than they have at any previous time.

FIVE DOLLARS AND COSTS

For Acting in a Disorderly Manner at the
Diamond Pottery.

Yesterday afternoon a lad named John Owens, Jr., appeared at the Diamond pottery works in an intoxicated state and attempted to enter the factory. He was met by one of the proprietors, John Mountford, and refused admittance. At this Owens became very demonstrative and declared emphatically that he was going in the works. He also addressed some very scurrilous epithets to Mr. Mountford. Meanwhile one of the office force rang up the patrol, and Owens getting wind of the affair took to his heels and escaped before the wagon arrived. Last night he went down to the city hall and gave himself up. Mayor Gilbert fined him \$5 and costs, which was paid.

Married Thursday.

J. B. Kinter, the popular young veterinary surgeon, was married on last Thursday to a society young lady of Marion Center, Pa., a few friends of the contracting parties being present. The

happy young couple will return home on the evening train today, and will make their future home in this city. Although Mr. Kinter has resided in this city but a short time, he has made many friends here who will wish him and his bride a world of happiness.

HORSES THIS TIME.

Constable Bertele Makes a Haul This
Morning.

Constable Bertele, this morning, about 5 o'clock, found two horses running loose on Avondale street. He captured both animals and started with them to a livery stable. Before he had gone very far the owner of one animal appeared on the scene with a halter and wanted his horse. Constable Bertele, after some persuasion, decided to let him have it, but at the same time told him that this would be the first and last time he would be able to secure his horse without paying any costs if he found it loose again. The other animal was taken to the stable of Harrison Rinehart, where the owner was compelled to pay for having it kept, and also for Tony's trouble.

A TRAIN LOAD

Of Stone and Towers for the Bridge Ar-
rived Last Night.

A train of flat cars containing more stone and towers for the bridge arrived last night, and is now lying on a siding at the freight depot. The stone is to be placed on the top of the piers, and has been cut and squared, in readiness for use.

The pier in the river nearest the Ohio shore is almost completed, and by Friday the finishing touches will have been added to it. The favorable weather lately has made it possible to accomplish progress in the construction of the piers and the task will be finished easily ahead of the time limit.

OVER THE BANK.

Willis Davidson Receives Painful Injuries
While Cycling.

Willis Davidson, an employee of the clerical department at the glass house, is carrying his arm in a sling, caused by an accident while cycling. While going to work yesterday Davidson was speeding down the railroad to the glass house, and lost control of his wheel. Both he and the bicycle went over the bank, which is rather steep at that point, and the result was a badly sprained arm, which will lay him off duty for several days, and a slightly injured wheel. The path where the accident occurred is very dangerous, and more than one cyclist has received injuries by going over the hill.

FERRY BOAT DEAL.

The Ollie Neville May Change Hands
Soon.

Captain Ellwood Pusey went to Pittsburgh this morning to consult with Jutte & Co., in regard to disposing of the ferry boat Ollie Neville to the latter company. Negotiations for the purchase of the boat have been pending for several months, but inability of both parties to agree on terms, has prevented a consummation of the deal. It is thought that a satisfactory agreement will be reached soon.

CASE THROWN OUT.

Hartley Ellis Unsuccessful in a Suit
Against the Pittsburgh Dispatch.

The case of Hartley Ellis, formerly of this city, against the Pittsburgh Dispatch for \$5,000, was thrown out of court. The action was based on an alleged breach of contract. The judge, in his ruling, held that the contract between Ellis and the Dispatch became null and void after the publication became incorporated in 1888. Prior to this year the paper was published by a partnership, and all contracts closed upon incorporation.

Andrews Censured.

Superintendent Andrews, of the street railway, was severely scored by Wellsville council Monday night for failure to keep his pledges in regard to the streets, and if the practice of throwing dirt on the street at Wells' run is not ceased, the company's franchise will be forfeited. The solicitor was instructed to look up the matter and to see to what extent the conditions of the franchise were being violated and to begin proceedings against the company's bond for violation of contract.

Was He?

This conundrum appeared at the News Review office this morning: "Constable Bertele arrested two cows yesterday—was he guilty of a cowardly action in so doing?"

Getting Better.

Will S. Smith, who was struck by the breech pin of a gun some time ago, continues to improve, and unless something happens he will be able to be out in a short time.

ANOTHER SUIT IS ON

Thomas Coote After \$5,000 for
Injuries Received in

A DRIVEN-FROM-HOME COLLISION

The Street Railway Company are the De-
fendants—Case Will Occupy the Greater
Part of the Afternoon—Many Witnesses
Present.

Lisbon, June 3.—The jury was drawn for the case of Thomas Coote against the East Liverpool and Wellsville Street Railway company, which will be on trial the greater part of the afternoon. A \$5,000 verdict is asked to compensate the plaintiff for injuries received by him in a collision on the Driven-from-Home hill some time ago. Coote was enroute for East Liverpool, and when the collision occurred he was thrown violently into an opening in the floor, caused by the trap door being thrown out of place. The jar and fall caused concussion of the lungs and painful sprains about the head, face and neck. He suffered for several weeks, incurring expenses for medical attendance and nursing amounting to \$75. The accident is charged to the carelessness of the motorman, James McBane, who was in charge of the car. W. F. Louis and Judge Moore will conduct the prosecution and Colonel Hill the defense, Judge Blandin being unable to assist, owing to a misunderstanding as to the time the case would be up for trial. About 12 witnesses are present to testify.

LATER—The case was settled by the consent of all parties interested by the company paying to Coote the sum of \$300, and the costs of prosecution. The settlement was made after the jury had been empaneled and sworn.

Lynch Is Home.

Mike Lynch arrived home last night from Corning, N. Y., where he has been playing ball. As the club at that place has only a few more games to play, and Lynch was not at all pleased with the town, he decided to return home. Lynch was pitching excellent ball, and the management of the Corning club was well satisfied with his work in the box. He has received an offer from Columbus, Ga., and may leave for that city in a few days.

Resignation Accepted.

Captain Will Hill, of Company E, has accepted the resignation of Sergeant Terrence, who is necessarily forced to sever his connection with the company now that he has been appointed fireman on the paid department. Discharge papers have been sent in to Colonel Gyger in order to obtain his official signature.

A Good Investment.

From all indications the oil and gas wells recently opened up on Alum Cliff place will prove a success, and the venture be an exceedingly profitable one to the investors. The work of drilling a third well has been commenced and more machinery to operate the wells is being sent out daily.

Tomorrow Night.

The John G. Woolley Prohibition league will meet in their hall in the Ferguson & Hill building tomorrow evening. The usual program of music and recitations will be observed, after which an address will be made to the league on the subject of prohibition by Rev. P. H. Jones, mayor of Wellsville.

Will Cross the Sea.

A number of English residents will visit the land of their birth during the summer months. Among those who will go over the sea are Henry Greenwood and wife, of Ridgeway avenue, and John Hodge and daughter, Mrs. Sarah Ann Lythe, of Starkey lane.

Made a Hit.

The march recently composed by Frank Rigot, of this city, who is at present studying music in Pittsburgh, has made a decided hit in that city, being played by the Great Western band, and on several occasions has been rendered at concerts in Carnegie hall.

The Game Tomorrow.

The ball game between the bartenders of this city and Pittsburgh, to be played tomorrow afternoon, will attract an unusually large crowd to West End park, and a large amount of fun can be expected.

Only Fairly Busy.

James Myler, who is an employee of the Kittanning pottery, returned to work this morning after a short visit with his family who reside here. He says that the pottery is only fairly busy.

As this city now has a club that is as strong as a majority of the inter-state teams, this don't worry the boys a particle, but makes them all the more anxious to win the game Saturday. As Scio college is the only club that has been here this year that was anything near as good as the home team it is to be hoped the Youngstons are as good as reported. The members of the East Liverpool club are spending a great deal of time practicing at West End park, and it is safe to say they will play better ball Saturday than they have at any previous time.

FIVE DOLLARS AND COSTS

For Acting in a Disorderly Manner at the Diamond Pottery.

Yesterday afternoon a lad named John Owens, Jr., appeared at the Diamond pottery works in an intoxicated state and attempted to enter the factory. He was met by one of the proprietors, John Mountford, and refused admittance. At this Owens became very demonstrative and declared emphatically that he was going in the works. He also addressed some very scurrilous epithets to Mr. Mountford. Meanwhile one of the office force rang up the patrol, and Owens getting wind of the affair took to his heels and escaped before the wagon arrived. Last night he went down to the city hall and gave himself up. Mayor Gilbert fined him \$5 and costs, which was paid.

Married Thursday.

J. B. Kinter, the popular young veterinary surgeon, was married on last Thursday to a society young lady of Marion Center, Pa., a few friends of the contracting parties being present. The

happy young couple will return home on the evening train today, and will make their future home in this city. Although Mr. Kinter has resided in this city but a short time, he has made many friends here who will wish him and his bride a world of happiness.

HORSES THIS TIME.

Constable Bertele Makes a Haul This Morning.

Constable Bertele, this morning, about 5 o'clock, found two horses running loose on Avondale street. He captured both animals and started with them to a livery stable. Before he had gone very far the owner of one animal appeared on the scene with a halter and wanted his horse. Constable Bertele, after some persuasion, decided to let him have it, but at the same time told him that this would be the first and last time he would be able to secure his horse without paying any costs if he found it loose again. The other animal was taken to the stable of Harrison Rinehart, where the owner was compelled to pay for having it kept, and also for Tony's trouble.

A TRAIN LOAD

Of Stone and Towers for the Bridge Arrived Last Night.

A train of flat cars containing more stone and towers for the bridge arrived last night, and is now lying on a siding at the freight depot. The stone is to be placed on the top of the piers, and has been cut and squared, in readiness for use.

The pier in the river nearest the Ohio shore is almost completed, and by Friday the finishing touches will have been added to it. The favorable weather lately has made it possible to accomplish progress in the construction of the piers and the task will be finished easily ahead of the time limit.

OVER THE BANK.

Willis Davidson Receives Painful Injuries While Cycling.

Willis Davidson, an employe of the clerical department at the glass house, is carrying his arm in a sling, caused by an accident while cycling. While going to work yesterday Davidson was speeding down the railroad to the glass house, and lost control of his wheel. Both he and the bicycle went over the bank, which is rather steep at that point, and the result was a badly sprained arm, which will lay him off duty for several days, and a slightly injured wheel. The path where the accident occurred is very dangerous, and more than one cyclist has received injuries by going over the hill.

FERRY BOAT DEAL.

The Ollie Neville May Change Hands Soon.

Captain Ellwood Posey went to Pittsburgh this morning to consult with Jutte & Co., in regard to disposing of the ferry boat Ollie Neville to the latter company. Negotiations for the purchase of the boat have been pending for several months, but inability of both parties to agree on terms, has prevented a consummation of the deal. It is thought that a satisfactory agreement will be reached soon.

CASE THROWN OUT.

Hartley Ellis Unsuccessful in a Suit Against the Pittsburgh Dispatch.

The case of Hartley Ellis, formerly of this city, against the Pittsburgh Dispatch for \$5,000, was thrown out of court. The action was based on an alleged breach of contract. The judge, in his ruling, held that the contract between Ellis and the Dispatch became null and void after the publication became incorporated in 1888. Prior to this year the paper was published by a partnership, and all contracts closed upon incorporation.

Andrews Censured.

Superintendent Andrews, of the street railway, was severely scored by Wellsville council Monday night for failure to keep his pledges in regard to the streets, and if the practice of throwing dirt on the street at Wells' run is not ceased, the company's franchise was instructed to look up the matter and to see to what extent the conditions of the franchise were being violated and to begin proceedings against the company's bond for violation of contract.

Was He?

This conundrum appeared at the News Review office this morning: "Constable Bertele arrested two cows yesterday—was he guilty of a cowardly action in so doing?"

Getting Better.

Will S. Smith, who was struck by the breech pin of a gun some time ago, continues to improve, and unless something happens he will be able to be out in a short time.

ANOTHER SUIT IS ON

Thomas Coote After \$5,000 for Injuries Received in

A DRIVEN-FROM-HOME COLLISION

The Street Railway Company are the Defendants—Case Will Occupy the Greater Part of the Afternoon—Many Witnesses Present.

Lisbon, June 3.—The jury was drawn for the case of Thomas Coote against the East Liverpool and Wellsville Street Railway company, which will be on trial the greater part of the afternoon. A \$5,000 verdict is asked to compensate the plaintiff for injuries received by him in a collision on the Driven-from-Home hill some time ago. Coote was enroute for East Liverpool, and when the collision occurred he was thrown violently into an opening in the floor, caused by the trap door being thrown out of place. The jar and fall caused concussion of the lungs and painful sprains about the head, face and neck. He suffered for several weeks, incurring expenses for medical attendance and nursing amounting to \$75. The accident is charged to the carelessness of the motorman, James McBane, who was in charge of the car. W. F. Loris and Judge Moore will conduct the prosecution and Colonel Hill the defense, Judge Blandin being unable to assist, owing to a misunderstanding as to the time the case would be up for trial. About 12 witnesses are present to testify.

LATER—The case was settled by the consent of all parties interested by the company paying to Coote the sum of \$300, and the costs of prosecution. The settlement was made after the jury had been empaneled and sworn.

Lynch Is Home.

Mike Lynch arrived home last night from Corning, N. Y., where he has been playing ball. As the club at that place has only a few more games to play, and Lynch was not at all pleased with the town, he decided to return home. Lynch was pitching excellent ball, and the management of the Corning club was well satisfied with his work in the box. He has received an offer from Columbus, Ga., and may leave for that city in a few days.

Resignation Accepted.

Captain Will Hill, of Company E, has accepted the resignation of Sergeant Terrence, who is necessarily forced to sever his connection with the company now that he has been appointed fireman on the paid department. Discharge papers have been sent in to Colonel Gyger in order to obtain his official signature.

A Good Investment.

From all indications the oil and gas wells recently opened up on Alum Cliff place will prove a success, and the venture be an exceedingly profitable one to the investors. The work of drilling a third well has been commenced and more machinery to operate the wells is being sent out daily.

Tomorrow Night.

The John G. Woolley Prohibition league will meet in their hall in the Ferguson & Hill building tomorrow evening. The usual program of music and recitations will be observed, after which an address will be made to the league on the subject of prohibition by Rev. P. H. Jones, mayor of Wellsville.

Will Cross the Sea.

A number of English residents will visit the land of their birth during the summer months. Among those who will go over the sea are Henry Greenwood and wife, of Ridgeway avenue, and John Hodge and daughter, Mrs. Sarah Ann Lythe, of Starkey lane.

Made a Hit.

The march recently composed by Frank Rigot, of this city, who is at present studying music in Pittsburgh, has made a decided hit in that city, being played by the Great Western band, and on several occasions has been rendered at concerts in Carnegie hall.

The Game Tomorrow.

The ball game between the bartenders of this city and Pittsburgh, to be played tomorrow afternoon, will attract an unusually large crowd to West End park, and a large amount of fun can be expected.

Only Fairly Busy.

James Myler, who is an employe of the Kittanning pottery, returned to work this morning after a short visit with his family who reside here. He says that the pottery is only fairly busy.

EAST LIVERPOOL, O., WEDNESDAY, JUNE 3.

For President,
WILLIAM MCKINLEY,
OF OHIO.

LETTER CARRIERS.

Don't scold them; don't get impatient with them; they are faithful, earnest workers; they have hard work in delivering mail on these hot and sultry days, and must face the snow and sleet during the bitter days of winter. Greet them with words of kindness and commendation; they are worthy of, and deserve, good treatment.

GROVER'S LITTLE AXE.

He did it with his little hatchet! Did what? Cut the life out of the river and harbor bill. Who did? Why, Grover did! Did he? Yes, he did. And what did the other fellows do? What fellows? Those fellows in the House at Washington city! Oh, they took all their little hatchets and cut steaks and fries and boils out of Grover. They did? Yes, they did. My, my! Say, Grover must feel awful bad? Yes, but he'll feel worse when those fellows in the Senate gather up the fragments of his mortal remains and hack them all to pieces. Will they do that? Yes, I guess they will. Let you know later.

PROTECT PROPERTY.

A property owner of this city, a gentleman whose word is his bond, and who has resided in East Liverpool for many years, accosted the writer yesterday and lamented the fact that certain affairs are not as they used to be, some twenty-five years ago. At that time the fence around a man's home was a protecting line. The average boy would not think of crossing said line in daytime and despoiling the owner of flowers or fruit. At the present time the youngster has the audacity and nerve to not only clamber over the fence, in the presence of passing citizens, help himself to fruit or flowers, but will curse the owner for interfering with him. Said the citizen above referred to: "In the days mentioned, I took especial delight in training, cultivating and looking after fruit trees in the garden surrounding my home, and I thus secured some splendid and delicious fruit. In those latter years I have found that there was and is not a bit of use bothering myself in so doing, as the youngsters seem to think that I have no rights that they are bound to respect. Don't count me an old fogy, or behind the times, for I am not; but I do think that such a condition of affairs is shameful; and I am not alone in this thought, as I have heard many others express the same opinion. I do not believe that humanity at large is any worse, for I know certain cities and towns where property and property rights are as much respected and protected as they were in my younger years. I believe that the matter of arresting bad and maliciously inclined boys, and then letting them off with a reprimand, is largely responsible for the bad state of affairs in East Liverpool. I would not rob the youngsters of legitimate fun and pleasure; but when they become thieves and trespassers, they should be arrested and punished, given the full limit of the law, and hold their parents responsible for their actions. Let them know that they will be thus punished, and they will soon cease their shameful measures. Tell our city officials, through your columns, to cease threatening and reprimanding, and give these young offenders a benefit, and our city will cease to be a hotbed for the turning out of lawless and criminal characters. Let council pass laws which will forbid young boys and young girls from parading our streets and alleys until a late hour of the night, and the condition of East Liverpool, from a moral standpoint, will be very much improved."

Will Release Reform Leaders.

LONDON, June 3.—Mr. J. B. Robinson, the South African millionaire, has received a cable message from Pretoria, saying that the leaders of the Johannesburg reform committee will be released in a few days.

Storm in Tennessee.

KNOXVILLE, Tenn., June 3.—A heavy storm over East Tennessee damaged crops to the amount of \$15,000. The depot at Luttrell and many barns were burned by lightning.

CUISINE SECRETS.

TRICKS OF THE COOKS AND THE MARKETMEN OF PARIS.

Counterfeit Bubbles on Bouillon, Artificial Ham Bones, Stamped Cocks' Combs and Varished Turkey Legs Are Some of the Parisian Deceptions.

We often hear people who have paid 25 minute visits to Paris talk of the beauties of Parisian cuisine. Here are a few of them. Just as the Parisians, like the cockney coffeehouse keepers, have found out how to make coffee without coffee, so have also the Parisian restaurateurs found out how to make bouillon, or beef tea, without beef. At the gargottes, the lowest class of Paris restaurants, a species of very ingenious fraud has now been common for over half a century and maybe more. It consists in passing off warm water, colored and flavored with burned onions and caramel and into which some little grease bubbles have been injected, as soup. It is true that bones which have been twice stewed, first by the larger restaurants and secondly by the inferior class of traitresse and east away as done with, are stewed in this water for the third time, in order that it may be impregnated, if possible, with some particle of animal substance; but, as this operation fails to impart to it those little greasy bubbles which the French term "eyes," and for which the shrewd frequenters of these establishments invariably look in order to satisfy themselves that the broth they drink has been actually made from meat, a clever cook got over the difficulty by blowing a spoonful of fish oil, which, falling into the caldron or soup tureen, formed the eyes so dear to epicures.

Parisians of a certain class are inordinate eaters of ham—in fact, almost as many hams are eaten in Paris as could be furnished by all the pigs killed throughout the whole of France, even allowing for both shoulder and leg being cured in accordance with French practice. The demand used—and may be now—to be supplied in this wise. The dealers in cooked hams bought up the old ham bones at a couple of sous a piece and ingeniously inserted them into pieces of pickled pork, which they trimmed into shape and coated with grated crusts. In this way many bones did duty hundreds of times over, lasting, in fact, for years. They would leave the dealers in the morning and frequently return to them the same night, to quit them again the following day. Nevertheless the supply could hardly keep pace with the demand. Only fancy the inconvenience of having to wait for your ham until your neighbor's servant took back the ham bone which the charcutier relied upon receiving yesterday! It was to obviate such a state of things that an ingenious individual conceived the idea of manufacturing ham bones wholesale, and ere long he drove a thriving trade at 10 sous a dozen, since which time the stock of hams has augmented and the delicacy has become less difficult of attainment. Much in the same way another ingenious individual, knowing the immense consumption of cocks' combs in Paris for ragouts, coquilles of cocks' combs and vol-au-vents and seeing the high prices the said cocks' combs commanded owing to the limited supply, set to work to minister to the demand and duly established himself as a manufacturer of cocks' combs. So extensive was the trade done by him that he found it necessary to set up a small steam engine. He was a great enthusiast and was accustomed to pride himself upon the artificial cocks' combs which emanated from his atelier being greatly superior to the natural article.

This is the way our artist went to work. As the same method is largely worked at this day in London as well as in Paris—ay, and in New York and New Orleans—we purposely use the present tense for a time. He takes the palate of a bullock, cow, calf, sheep or goat—either will do, though he prefers the first. After having blanched it in boiling water he macerates it and detaches the flesh of the palatine vault without in the slightest degree deranging it and then places it under a stamping machine, which punches out cocks' combs more perfect in shape than those produced by nature, yet sufficiently resembling them to deceive the connoisseurs. Still, there is a way of detecting

the artificial production—the cocks' combs of clumsy nature have papillae on both sides, whereas those of art have them only on one. Counterfeit cocks' combs are sold as low as 4 sous the dozen in Paris to poulterers, keepers of restaurants, pastry cooks, etc., and at 6 sous to cooks in private families.

Apocryph of our subject, this man, in his intercourse with poulterers, got to learn that when they did not sell their turkeys off at once they were obliged to lower the price about one-fifth every subsequent day or submit to a loss, although the turkey might present the same appearance of freshness that it did when first killed. And yet no cook could be deceived, and this solely because the bird's legs, which were black and shiny on the day of its death, assumed a more and more grayish tone as time went on. This was quite sufficient for our man of genius. The shrewd manufacturer of cocks' combs hastened home and set to work to compound a varnish which should defy the attacks of time and render turkeys' legs ever fresh and youthful. In a couple of days he returned triumphant to the market and furnished the best proof of his success by deceiving the dealers themselves. Trials were next made upon the public, and turkeys with varnished legs were offered to the cunningest cooks, who, deceived by appearances, made their purchases without demanding the customary abatement, and the conservation of the brilliant luster of turkeys' legs became from that time forward a regular trade, which certainly says little for the honesty of the poulterers, less for the judgment of the cooks, and least of all for the assumed delicacy of taste of the Parisian gourmets.—London Globe.

Reading the Newspaper.

"What a newspaper reading people we are!" said Mr. Goshim. "It seems as though everybody reads newspapers. In an elevated car the other day I saw a little child less than a year old which was reading a newspaper, or which seemed to be. The father had been reading the paper really, but the baby, sitting on its father's knee, had clutched at it, and finally the father placed it in the child's little hands, and it sat there, holding the paper in front of itself, and looking at it soberly, and now and then looking up at its father, and all this pleased a gentleman with a gray mustache, who sat opposite, that when he got up to go out he chuckled the baby gently under the chin and smiled at it as he passed."—New York Sun.

The Travelers' Convention.

TERRE HAUTE, Ind., June 3.—The Travelers' Protective Association of America has assembled here in seventh annual convention. The address of John A. Lee, national president, shows that the organization has grown in numbers and extent of territory, now comprising 32 state divisions, 110 municipal post organizations and 11,000 active members.

Men are so constituted that everybody undertakes what he sees another successful in, whether he has aptitude for it or not.—Goethe.

BRADLEY GIVES IT UP.

Won't Allow His Name Presented For the Presidency.

SILVER TIDAL WAVE SCARED HIM.

He Says It Is Time to Forget Personal Preferences and Antipathies and Support the St. Louis Nominee—Advices Gold Democrats to Help.

LOUISVILLE, June 3.—The Commercial's special from Frankfort contains an interview with Governor Bradley, which is his official withdrawal as a presidential candidate. He announced to his friends that his name would not be presented to the St. Louis convention, although the Kentucky delegates-at-large and some district delegates are instructed for him. Governor Bradley looks on the growth of free silver among the southern and western Democrats with alarm as threatening the interests of the country. He urges the Republicans to meet the issue squarely and closes his interview thus:

"The nominee at St. Louis should have the undivided support of the party for the commercial interest of the republic is in as much danger as in 1881. Personal preferences should be laid aside and petty antipathies forgotten, and patriotic Democrats, who stand for the national advancement and prosperity of the nation, should be appealed to assist in the defeat of those who would lower the standard our money and thereby necessarily strain the nation's honor. Kentucky Republicans won a signal triumph last fall on a ringing declaration for sound money. They should stand by their guns, forgetting all internecine strife, and march shoulder to shoulder to a grand victory in November."

Governor Bradley's friends say he stated as soon as the returns of the silver tidal wave last Saturday came in that the time had come for state favorites and personal preferences to be laid aside.

TARIFF OUT OF POLITICS.

The Non-Partisan Convention Assembled at Detroit.

Brigham of Delta, O., grand master of the National Grange, was named as temporary chairman. The committee on tariff, S. B. Archer, Newark, N. J.; C. H. Leonard, Grand Rapids, Mich.; F. P. Populist Gains in Oregon.

PORTLAND, Ore., June 3.—Returns from the elections show large Populist gains. Ex-Governor Penney has been elected mayor of Portland by a plurality of 1,200. The Republicans have elected Bean supreme judge by from 5,000 to 10,000. The two congressmen are in doubt, the contest being between the Republican and Populist nominees in both districts. The legislature will be close, but at the present time the indications favor the Republicans.

Lex Men Surrender in Kentucky.

LEXINGTON, Ky., June 3.—The Democratic state convention is being held here today. It is harmonious and simply a ratification of a majority of the county conventions held last Saturday. The gold standard delegates held an informal conference and agreed to make no further contest on the organization of the convention and selection of delegates-at-large or anything. Nearly all the delegates are wearing Blackburn badges.

Indiana Gold Democrats.

INDIANAPOLIS, June 3.—The State League of Gold Standard Democrats has organized with Mayor Taggart, president, and Pierre Gray, son of the late Governor Gray, as secretary. A formidable executive committee has also been appointed. A vigorous campaign that includes the entire state has been mapped out.

Maine Endorsed Reed For President.

BANGOR, Me., June 3.—The Maine Republican convention has endorsed

Thomas B. Reed for president and declared for a gold standard. Temporary Chairman Sewall made a laudatory speech in Reed's favor, though not naming him.

Ohio Free Silver Conference.

COLUMBUS, June 3.—A state conference of free silver men is being held here today. Henry T. Niles of Toledo, committeeman of the American Bimetallic league, says the purpose of the conference is to elect delegates to a convention to be held in St. Louis in July.

Kansas Democratic Convention.

TOPEKA, June 3.—The Democratic state convention assembled here today. The fight for free silver is practically settled, the gold standard element virtually conceding defeat.

Cubans Blew Up a Train.

HAVANA, June 3.—A dispatch from Havana says that the insurgents of Cuba recently placed a dynamite bomb on the Sabana railway, the explosion of which wrecked a train, killed the conductor and injured several people.

Reformed Church Synod.

DAYTON, O., June 3.—The general Reformed synod determined to extend its missions from Japan into China, providing there is a favorable change in the federal administration.

Frances Willard Was Present.

LONDON, June 3.—The British Women's Temperance association has held its annual meeting, Agnes Weston presiding. She said that there were now 100 branches of the association and 100,000 members. Frances Willard, Lady Henry Somerset and others spoke.

\$14,000 Still Due.

CHICAGO, June 3.—Fourteen thousand dollars of the amount guaranteed by the citizens of Chicago to the Democratic national committee for the purpose of meeting the expenses of the convention remains to be paid. It is promised that the balance will be paid by June 13.

The Weather.

Generally fair; warmer in northern portions; light easterly to southerly winds.

THE SUN HELPS CUBA.

Gomez Says the Heat Is Death to the Spanish.

EACH DAY BRINGS LIBERTY NEARER

Weyler's Work Has Only Done Harm. The Cuban Commander Says Polavieja Will Replace the Butcher—Hunger Lessens the Spaniards' Enthusiasm.

NEW YORK, June 3.—The following letter from General Maximo Gomez to Senor Estrada Palma, the Cuban delegate in this city, has been given out at the headquarters of the Cuban delegation:

"There is no doubt that the revolution has successfully gone through its third period, and is now powerful all over the island.

"The first period was the outbreak. In the second was our organization. Finally the third period is marked by the invasion to the west provinces of the winter campaign, which has just closed with no result favorable to the cause of the monarchists in spite of their famous army of 150,000 men and their powerful implements of war throughout the country. The torch was stopped as soon as the planters were diverted from grinding. Peasant proprietors were carefully respected and their crops were not destroyed by the hoofs of our horses.

"At first the Cuban family had no fear of the Spanish soldier, and our wounded were safe. But all this has changed as by magic, since Spain appointed Weyler to be the pacemaker.

"Disregardful of the immense interests that he compromised, it was he who again lighted the torch by his foolish pretension of grinding against the orders of the revolutionary government and for this reason new canefields and even some factories were destroyed, as also were several towns and villages, of which the Spanish soldiers had taken possession to depress and corrupt our families.

"Weyler's work has done the country great harm, and this is all that he has done, for otherwise, the liberating army is as mighty as ever.

"The revolution proceeds on its triumphal course, and every day that passes may be considered a victory now for our cause, and any petty loss that we may occasionally have is of no consequence when on the whole we triumph.

"The revolution thus enters now on its fourth period, in which the conflict will assume a severe character for Spain. Summer is death to them; our soldiers on the contrary are made of steel, and the sun that kills the Spaniard is a friend to the Cuban.

"General Weyler will go, and it is now said that Polavieja will replace him. All to no purpose. What General Martinez Campos was not able to do at the beginning no other will do now.

"The Spanish soldier has no enthusiasm to keep his courage up. There is no spirited soldier when his stomach is empty. The Spanish soldier must be paid, even for his vices, if he is to be of any good, and Spain has no longer the money for it.

"I made yesterday two prisoners, whom I could hardly decide to send back to the crown. They seemed so willing to remain with us and share our abundant food."

THE SPANISH DESERTING.

Two Companies Go Over to the Insurgents.

NEW YORK, June 3.—A New York merchant who has large interests in Cuba has called at the office of the Cuban junta and banded to Dr. Castillo a letter which he had just received from Pinar del Rio.

The agent of the merchant reported that two companies of Spanish soldiers, with their arms and ammunition, had left their battalion at the trocha and joined the Cuban forces under Antonio Maceo.

The Spanish troops have not been paid for months and the writer says he would not be surprised if other companies followed.

YELLOW FEVER AIDS CUBA.

The Disease Making Terrible Inroads in the Spanish Army.

TAMPA, Fla., June 3.—Private advices from Cuba announce that yellow fever is raging there. A train from Matanzas Friday brought into Havana from one battalion 60 men afflicted with the fever. This, with the continual desertions is reducing the Spanish forces greatly.

Ninety soldiers from the Madras battalion in the Vuelta Abajo have joined forces with Maceo on account of the scant supply of rations.

REFORMED PRESBYTERIAN SYNOD.

A Strong Report Made Against Secret Societies.

CINCINNATI, June 3.—The Rev. Thos. Patton of East Goldenham, N. Y., made the annual report on secret societies at the Reformed Presbyterian synod. He regarded such societies as rivals of the church. He urged that members should be more outspoken against these societies.

Rev. Wm. Glasgow presented the statistical report for the year which showed 13 presbyteries; 115 congregations, and a total membership of 9,910. The total contributions for the year are \$163,447. City congregations have made great increase, but country congregations have fallen off. Proposals were considered and La Junta, Colo., Clarinda and College Springs, Ia., were considered, but it was finally referred to a college committee to report next year.

It Goes Through the Senate by a Vote of 32 to 25.

WASHINGTON, June 3.—The long struggle in the senate over the bill to prohibit the issue of bonds has come to an end, and the bill passed by a vote of 32 to 25. The bill as passed covers only three lines, as follows:

"Be it enacted that the issuance of interest-bearing bonds of the United States for any purpose whatever without further authority of congress is hereby prohibited."

AIDING NEEDY AT ST. LOUIS.

Contributions Pouring In—Work of Restoration Continues.

ST. LOUIS, June 3.—The work of relief and restoration goes on in the midst of falling rain, which has prevailed more or less during the past week. Contributions of money, clothing, provisions and other necessities are coming in liberally and all the destitute are being cared for.

The losses caused indirectly by the tornado are just beginning to reveal themselves. Because the tornado ruined the mills and factories a large number of men will be out of employment for weeks and months. How many men have been deprived of their opportunity to earn a livelihood cannot be stated with any degree of accuracy, but it certainly runs into the hundreds in excess of the number employed to clear away the rubbish and repair the damage wrought by the wind.

Ten district assessors and 15 clerks have left the office of A. H. Frederick, president of the board of assessors, to make an official estimate of the losses caused by the storm. The district assessors, as well as the clerks to assist them, are experts in property values, and they will make a house-to-house canvass in the territory blasted by the tornado. Mr. Frederick expects to have a complete report of their work a week hence.

Nine more burial permits have been issued for the interment of storm victims. East St. Louis is now thoroughly on its feet. A single day has made a vast change in the appearance of the streets

in the devastated districts, yet the supply of relief material is keeping pace with the demand. Dozens of persons are kept constantly busy handing out groceries, shoes, dress goods, but so numerous have been the response in money and other gifts, that for the time being there is no danger of want.

MISS STEVENSON MARRIED.

The Vice President's Daughter Weds a Son of General Hardin.

WASHINGTON, June 3.—At the New York Avenue Presbyterian church last night Miss Julia Stevenson, daughter of Vice President and Mrs. Stevenson, and Rev. Martin Hardin, a son of General P. Watt Hardin of Kentucky, were married by the Rev. Dr. Radcliffe.

The bride's wedding dress was of ivory white satin of great richness. The bodice was high-necked and had chiffon trimming held by small clusters of orange blossoms. A spray of orange blossoms was worn with the tulle veil, and the bridal bouquet was of white roses and lilies of the valley.

Miss Letitia Stevenson was the maid of honor. The bridesmaids were Miss Letitia Scott, Miss Jane Hardin, Miss Julia Scott and Miss Julia Hardin. Mr. Charles Hardin was best man. The ushers were Mr. Woodward Longmire and Mr. Richard Hill of Kentucky, Mr. Carl Vrooman of Baltimore, Mr. George Hamlin of Boston, Captain Brownell, United States engineer corps, and Mr. Walter Wilcox.

After the wedding there was a reception to a large number of invited guests at the Normandie hotel, where the vice president and his family reside.

The wedding gifts were unusually beautiful and elaborate. The vice president and Mrs. Stevenson gave a large diamond star, which clasped the veil to the brown hair of the bride, General and Mrs. Hardin, the bridegroom's parents, gave a brougham and a pair of horses. The Chinese minister sent a magnificent roll of white satin brocade. Secretary and Mrs. Lamont, an empire fan with pearl sticks; the Brazilian minister and Mrs. de Mendonca, a painting, which is a gem of art; the Mexican minister and Mme. Romero, a silver tea service, gold lined, each piece bearing the bride's monogram; the Illinois congressional delegation, a large silver pitcher. Others also gave elaborate gifts.

The ceremony was witnessed by President and Mrs. Cleveland, members of the cabinet and their families, a number of foreign ambassadors and ministers and their families and a large number of congressmen.

One of the most handsome gifts was a silver tea service, presented by a committee composed of Senators Morrill and Harris on behalf of the United States senate.

WILL CAMP AT CLEVELAND.

The Entire Ohio National Guard Formed Into Brigades—Fine Grounds.

COLUMBUS, June 3.—The entire Ohio national guard will camp at Cleveland this summer, the orders to that effect having been issued from the office of the adjutant general. The different regimental organizations are formed into temporary or provisional brigades for encampment purposes for the current year, making four brigades out of the eight infantry regiments and constituting the artillery regiment a brigade.

An ideal place has been selected for the encampment of the troops, it being located on the West Side of Cleveland in the heart of one of the wealthiest parts of the city. The camp grounds contain about 160 acres of beautiful level ground, being well known as the Perkins property. It is bounded on the north and south, respectively, by Lake avenue, the wealthy residence boulevard along the lake front, and the Lake Shore tracks, adjoining the crossing of the Lake Shore railroad and Nickel Plate tracks and is nearly opposite Edgewater park.

The orders for the encampment are dated at general headquarters, this city, and are general orders No. 11, reading as follows:

The different organizations of the Ohio national guard are hereby temporarily formed into brigades for encampment purposes for the current year as follows:

First brigade—First regiment of infantry, Sixteenth regiment of infantry, Toledo cadets, infantry, Troop A, cavalry.

Second brigade—Eighth regiment of infantry, Seventeenth regiment of infantry.

Third brigade—Fourteenth regiment of infantry, second regiment of infantry, Ninth battalion of infantry.

Fourth brigade—Third regiment of infantry, Fifth regiment of infantry, Artillery brigade—First regiment of light artillery.

The different brigades will encamp at Cleveland, O., as follows:

First brigade—From July 20 to July 25 inclusive.

Second brigade—From July 28 to Aug. 2 inclusive.

Third brigade—From Aug. 5 to Aug. 10 inclusive.

Fourth brigade—From Aug. 13 to Aug. 18 inclusive.

Artillery brigade—From Aug. 21 to Aug. 26 inclusive.

THE TEACHER SKIPPED.

Great Indignation Over His Refusal of Certificates of Three Young Ladies.

MARION, O., June 3.—Larue, O., is exercised over the actions of their former high school teacher, Mr. W. A. Miller. Mr. Miller was until Friday evening a member of the board of county examiners. At that time his resignation was accepted by Probate Judge Schultz. It seems that sometime since three of Larue's foremost young ladies applied for teacher's certificates and successfully passed the examination.

Miller refused to give them certificates, as he said they were not of good moral character. The young ladies, Misses Jennie Leonard, Belle Simpson and Grace Baldwin, notified their brothers of what Miller had said and he was given 24 hours to leave town. It is not known where the unpopular educator has gone.

An Old Woman Probably Murdered.

CLEVELAND, June 3.—Mrs. Eleanor McClellan was found dead on the lake shore at Conneaut, O., last Sunday morning, and it is now believed she was murdered. Mrs. McClellan, who was about 50 years old, was formerly a schoolteacher at some place in New York, but had been employed as a domestic in this city for some time. She disappeared a few days ago. She told several persons that she had run away from Cleveland to escape her divorced husband. She had evidently been struck on the head with some blunt instrument.

LONDON, O., June 3.—Daniel Nolan, a South Main street saloonist, has been before Mayor Armstrong charged with keeping his saloon open Saturday night after 10 o'clock. He pled guilty to the charge and was fined \$50 and costs. In default of payment he was sent to jail. The mayor remarked to the accused that he was sorry he could not fine him double that amount.

The reception held at the Alvin social club room last night, in honor of Miss Elmira Cavitt, of Findlay, who was the guest of her brother, Frank Cavitt, of Market street, was well attended and a pleasant time had. The lady left for her home this morning.

The signs at the Jethro bridge notifying people that they take their own risk in crossing the trestle have been placed in position. The signs are painted on large boards and are perfectly legible half a square away. How long the boys will permit them to remain is another question.

A large party of small cyclists left the city this morning at 7 o'clock for the purpose of spending the day at Smith's Ferry. The children arranged with the hotel keeper of the village two days ago to furnish them with dinner and supper upon their arrival, and of course didn't take anything with them.

"From all indications the blackberry crop will be larger this year than ever before," said a prominent St. Clair township farmer in a conversation with a reporter yesterday. "There was not enough frost the other evening to do any damage, and the fruit crop bids fair to be the largest ever known in this section of the country."

A large number of people from here attended the commencement at Wellsville last night. The class consisted of 21 members, one of the largest ever known in Columbiana county. Spring Grove summer residents are beginning to clean their cottages and are preparing to move to the ground for the season, and by this time next week the ground will be well populated. The grounds are in splendid condition, prettier than ever before, and if the present weather continues, the people will certainly have an ideal place to spend the summer.

Persons who happened to be in an up-town business house last night between 5 and 6 o'clock, were treated to an affair that was not down on the bills. A young man entered the store, and because the firm had sold to some other person an order of his, he became angry and said a few words. This also angered the proprietor, and before the bystanders had time to say anything, they were calling each other hard names. The storekeeper at last ordered the young man out of the store, but he wouldn't go, and the proprietor ejected him in a forcible manner.

Harry Pope and George Rigby rode their bicycles to Rock Point yesterday and came back on the train. The boys made excellent time from here to New Brighton, arriving at that place at about 15 minutes to 10 o'clock. Going from New Brighton to Rock Point they lost the road, and after exploring a great deal of Pennsylvania country at last got on the right track, arriving at the picnic grounds at 2 o'clock. As the distance was only 12 miles, and it took the boys four hours to get to Rock Point, they are of the opinion they rode a good distance before they got on the right road.

THE GARBAGE CLEANER.

How the "Slopper" Goes His Rounds Picking Up Unconsidered Trifles.

"That man is a slopper," remarked a police officer to a Star writer a few mornings since, "and he and his class give us any amount of trouble. If he stole, we could reach him by the law, but as he only finds, we cannot easily reach him." In further explanation, he said: "A slopper is a man who searches through the garbage cans in the alleys in the rear of hotels, boarding houses and private houses. Some only search for spoons, knives and forks that are thrown into the garbage receptacle by careless servants, for it is a fact that there are more silver spoons and knives and forks thrown away with the garbage than are stolen by servants, though the contrary is generally believed. The slopper is generally an hour or so ahead of the garbage collector, and he is often more regular and careful in his rounds than the garbage man."

"By industry we thrive," as the line in the copy books used to maintain, and by industry on a good west end route, especially one which takes in a number of boarding houses or hotels, a slopper can find enough table ware to pay the expenses of his tour. Often he makes a rich find. Very frequently he has permission to 'slop' the cans from the owners of the houses themselves, for he tells them he is on the lookout for stray pieces of meat, etc., which he sells to those who have dogs to feed. Some sloppers are honest enough to return any silverware they may find for the dog meat privilege, but it is a terrible temptation to many, and one they cannot or do not at times withstand."—Washington Star.

WASHINGTON, June 3.—The long struggle in the senate over the bill to prohibit the issue of bonds has come to an end, and the bill passed by a vote of 32 to 25. The bill as passed covers only three lines, as follows:

"Be it enacted that the issuance of interest-bearing bonds of the United States for any purpose whatever without further authority of congress is hereby prohibited."

The vote on its final passage was as follows:

AIDING NEDDY AT ST. LOUIS.

Contributions Pouring In—Work of Restoration Continues.

ST. LOUIS, June 3.—The work of relief and restoration goes on in the midst of falling rain, which has prevailed more or less during the past week. Contributions of money, clothing, provisions and other necessities are coming in liberally and all the assistance are being cared for.

The losses caused indirectly by the tornado are just beginning to reveal themselves. Because the tornado ruined many of the mills and factories a large number of men will be out of employment for weeks and months. How many men have been deprived of their opportunity to earn a livelihood cannot be stated with any degree of accuracy, but it certainly runs into the hundreds in excess of the number employed to clear away the rubbish and repair the damage wrought by the wind.

Ten district assessors and 15 clerks have left the office of A. H. Frederick, president of the board of assessors, to make an official estimate of the losses caused by the storm. The district assessors, as well as the clerks to assist them, are experts in property values, and they will make a house-to-house canvass in the territory blasted by the tornado. Mr. Frederick expects to have a complete report of their work a week hence.

Nine more burial permits have been issued for the interment of storm victims.

East St. Louis is now thoroughly on its feet. A single day has made a vast change in the appearance of the streets

LOCAL BREVITIES.

Barford's pottery has closed down temporarily.

A new grocery store has been opened on Calcutta road.

The east bound train was 30 minutes late this morning.

Mrs. M. E. Freshwater moved here from Rochester yesterday afternoon.

The St. Aloysius church annual picnic will be held at Rock Springs tomorrow.

A new long distance telephone has been placed in position at the freight depot.

The pottery clerks and clerks will do battle at the West End grounds Friday evening after 6 o'clock.

The cellar of J. F. Quick's storeroom, on East Market street, is flooded by water, caused by a break in the sewer.

The Ben Hur is due up from Parkersburg today. River traffic is slowly falling off. The stage of water is lessening.

A number of Rechabites went to Wellsville last night to assist in the initiation of a number of candidates. They report a pleasant evening.

Knowles' new end resumed work again today after a brief shutdown, pending the repair of a broken fan which supplies the factory with hot air.

The colored ladies of this city and Wellsville will tender a leap year party to their gentleman friends Thursday evening in the city hall at the sister city.

James Calhoun, who has been visiting his parents, Mr. and Mrs. Lewis Calhoun, of Seventh street, returned to his home in Canton yesterday. He returned overland on his bicycle.

The steamer Ford City is tied up at the docks in Pittsburgh, undergoing general repairs. The boat will return to the city when the work is completed, which will take several weeks.

A note was found enclosed in a bottle near the shore, in the river yesterday, which read, "Any one who finds this note and wishes to correspond, please address Thomas Cochran, Industry, Pa."

The reception held at the Alvin social club room last night, in honor of Miss Elmira Cavitt, of Findlay, who was the guest of her brother, Frank Cavitt, of Market street, was well attended and a pleasant time had. The lady left for her home this morning.

The signs at the Jethro bridge notifying people that they take their own risk in crossing the trestle have been placed in position. The signs are painted on large boards and are perfectly legible half a square away. How long the boys will permit them to remain is another question.

A large party of small cyclists left the city this morning at 7 o'clock for the purpose of spending the day at Smith's Ferry. The children arranged with the hotel keeper of the village two days ago to furnish them with dinner and supper upon their arrival, and of course didn't take anything with them.

"From all indications the blackberry crop will be larger this year than ever before," said a prominent St. Clair township farmer in a conversation with a reporter yesterday. "There was not enough frost the other evening to do any damage, and the fruit crop bids fair to be the largest ever known in this section of the country."

A large number of people from here attended the commencement at Wellsville last night. The class consisted of 21 members, one of the largest ever known in Columbiana county. The stage was very tastefully decorated, and the young people finishing their school days were greeted by an audience that filled the opera house to overflowing.

Spring Grove summer residents are beginning to clean their cottages and are preparing to move to the ground for the season, and by this time next week the ground will be well populated. The grounds are in splendid condition, prettier than ever before, and if the present weather continues, the people will certainly have an ideal place to spend the summer.

Persons who happened to be in an up-town business house last night between 5 and 6 o'clock, were treated to an affair that was not down on the bills. A young man entered the store, and because the firm had sold to some other person an order of his, he became angry and said a few words. This also angered the proprietor, and before the bystanders had time to say anything, they were calling each other hard names. The storekeeper at last ordered the young man out of the store, but he wouldn't go, and the proprietor ejected him in a forcible manner.

Harry Pope and George Rigby rode their bicycles to Rock Point yesterday and came back on the train. The boys made excellent time from here to New Brighton, arriving at that place at about 15 minutes to 10 o'clock. Going from New Brighton to Rock Point they lost the road, and after exploring a great deal of Pennsylvania country at last got on the right track, arriving at the picnic grounds at 2 o'clock. As the distance was only 12 miles, and it took the boys four hours to get to Rock Point, they are of the opinion they rode a good distance before they got on the right road.

THE GARBAGE CLEANER.

How the "Slopper" Goes His Rounds Picking Up Unconsidered Trifles.

"That man is a slopper," remarked a police officer to a Star writer a few mornings since, "and he and his class give us any amount of trouble. If he stole, we could reach him by the law, but as he only finds, we cannot easily reach him." In further explanation, he said: "A slopper is a man who searches through the garbage cans in the alleys in the rear of hotels, boarding houses and private houses. Some only search for spoons, knives and forks that are thrown into the garbage receptacle by careless servants, for it is a fact that there are more silver spoons and knives and forks thrown away with the garbage than are stolen by servants, though the contrary is generally believed. The slopper is generally an hour or so ahead of the garbage collector, and he is often more regular and careful in his rounds than the garbage man."

"By industry we thrive," as the line in the copy books used to maintain, and by industry on a good west end route, especially one which takes in a number of boarding houses or hotels, a slopper can find enough table ware to pay the expenses of his tour. Often he makes a rich find. Very frequently he has permission to 'slop' the cans from the owners of the houses themselves, for he tells them he is on the lookout for stray pieces of meat, etc., which he sells to those who have dogs to feed. Some sloppers are honest enough to return any silverware they may find for the dog meat privilege, but it is a terrible temptation to many, and one they cannot or do not at times withstand."—Washington Star.

At that time his resignation was accepted by Probate Judge Schultz. It seems that sometime since three of Larue's foremost young ladies applied for teacher's certificates and successfully passed the examination.

Miller refused to give them certificates, as he said they were not of good moral character. The young ladies, Misses Jennie Leonard, Belle Simpson and Grace Baldwin, notified their brothers of what Miller had said and he was given 24 hours to leave town. It is not known where the unpopular educator has gone.

WILL CAMP AT CLEVELAND.

The Entire Ohio National Guard Formed Into Brigades—Fine Grounds.

COLUMBUS, June 3.—The entire Ohio national guard will camp at Cleveland this summer, the orders to that effect having been issued from the office of the adjutant general. The different regimental organizations are formed into temporary or provisional brigades for encampment purposes for the current year, making four brigades out of the eight infantry regiments and constituting the artillery regiment a brigade.

An ideal place has been selected for the encampment of the troops, it being located on the West Side of Cleveland in the heart of one of the wealthiest parts of the city. The camp grounds contain about 160 acres of beautiful level ground, being what is known as the Perkins property. It is bounded on the north and south, respectively, by Lake avenue and the wealthy residence boulevard along the lake front, and the Lake Shore tracks, adjoins the crossing of the Lake Shore railroad and Nickel Plate tracks and is nearly opposite Edgewater park.

The orders for the encampment are dated at general headquarters, this city, and are general orders No. 11, reading as follows:

The different organizations of the Ohio national guard are hereby temporarily formed into brigades for encampment purposes for the current year as follows:

First brigade—First regiment of infantry, Sixteenth regiment of infantry, Toledo cadets, infantry, Troop A, cavalry.

Second brigade—Eighth regiment of infantry, Seventeenth regiment of infantry.

NEWS OF THE COURTS

Twenty-Five Dollars Given For
Defamation of Character.

TESTAMENTS OCCUPY ATTENTION

Of Probate Court—Will of Jesse Frost Set Aside Because He Failed to Provide For His Children—Another Admitted and a Hearing of a Third Set.

LISBON, June 3.—The \$1,000 slander case in which Thomas Carlisle asked to recover from Harrison Clapsaddle for alleged defamation of character, was given to the jury last evening, and a verdict of \$25 given to the plaintiff.

The case of the Herring Hall Mining company against George Meredith, of East Liverpool, was submitted to the court, which rendered a judgment in favor of the prosecution for \$20 and costs. The complaint was made by the company that in February 1894, the defendant obtained possession of a safe belonging to them, which he sold for \$25, and refused to account for any part of the amount.

The case of Emma Brown against William Abbott and others was argued to the court and partition of two lots in Leetonia ordered, as asked by the plaintiff.

The common pleas court this morning revoked and set aside the will in the estate of the late Jesse Frost, which was probated some time ago. The deceased resided a few miles north of Lisbon, and made this will in 1882, soon after his marriage. By its terms his entire estate was willed to his wife, no provision being made for the five children which were born to them. The entire family are deaf mutes.

The probate court admitted the will of the late Alexander Todd, of Madison township, and gave Stewart Todd letters testamentary, no bond being required.

The will in the estate of Monroe Duncan, late of Wellsville, was filed, and the application to probate will be heard on June 20.

Marriage licenses were issued to Forest G. Whittaker and Lizzie Hardy and Charles Geer and Daisy D. Mercer.

NEWS OF THE COURTS

Twenty-Five Dollars Given For Defamation of Character.

TESTAMENTS OCCUPY ATTENTION

Of Probate Court—Will of Jesse Frost Set Aside Because He Failed to Provide For His Children—Another Admitted and a Hearing of a Third Set.

Lisbon, June 3.—The \$1,000 slander case in which Thomas Carlisle asked to recover from Harrison Clapsaddle for alleged defamation of character, was given to the jury last evening, and a verdict of \$25 given to the plaintiff.

The case of the Herring Hall Mining company against George Meredith, of East Liverpool, was submitted to the court, which rendered a judgment in favor of the prosecution for \$20 and costs. The complaint was made by the company that in February 1894, the defendant obtained possession of a safe belonging to them, which he sold for \$25, and refused to account for any part of the amount.

The case of Emma Brown against William Abbott and others was argued to the court and partition of two lots in Leontonia ordered, as asked by the plaintiff.

The common pleas court this morning revoked and set aside the will in the estate of the late Jesse Frost, which was probated some time ago. The deceased resided a few miles north of Lisbon, and made this will in 1882, soon after his marriage. By its terms his entire estate was willed to his wife, no provision being made for the five children which were born to them. The entire family are deaf mutes.

The probate court admitted the will of the late Alexander Todd, of Madison township, and gave Stewart Todd letters testamentary, no bond being required.

The will in the estate of Monroe Duncan, late of Wellsville, was filed, and the application to probate will be heard on June 20.

Marriage licenses were issued to Forest G. Whittaker and Lizzie Hardey and Charles Geer and Daisy D. Mercer.

I have two little grand children who are teething this hot summer weather and are troubled with bowel complaint. I give them Chamberlain's Colic, Cholera and Diarrhoea remedy and it acts like a charm. I earnestly recommend it for children with bowel troubles. I was myself taken with a severe attack of bloody flux, with cramps and pains in my stomach, one-third of a bottle of this remedy cured me. Within twenty-four hours I was out of bed and doing my housework. Mrs. W. L. Dunagan, Bonanza, Hickman co., Tenn. For sale by A. H. Bulger, druggist.

And widows of comrades. The undersigned respectfully solicit your patronage, and invite you to call at their offices for the purpose of proving your pension vouchers on June 4, 1896. Our offices will be open at 5:30 a. m., to meet our friends.

"Many of the citizens of Rainsville, Indiana are never without a bottle of Chamberlain's Cough remedy in the house," says Jacob Brown, the leading merchant of the place.
